

We are pleased to announce that **Comexi**, specialist in solutions for flexible packaging industry, will be present at K 2016. After the success at last Drupa, the German city of Düsseldorf returns to be the perfect setting to display how Comexi remains as the **benchmark** company in this sector.

Responding to the new market trends, our group will show its latest solutions in industry 4.0, with **Comexi Cloud**, a step further towards the development of smart factories. At the same time, you will have the opportunity to learn about our solutions in flexographic presses, rotogravure and offset.

Besides, you will also have the chance to deep into our high performance laminators – solvent, solvent-less and water-based- and our solutions in **holography, heat seal and coating**. Specifically in slitting, we will display our wide range of slitting solutions, which guarantee the highest levels in quality and productivity with the most demanding jobs. Moreover, you will get to know our **Cingular Laser** technology, which ensures the best precision to solve new packaging trends like easy open, microperforation and a huge number of possibilities.

**Don't miss the chance to discover our solutions!**
